

The Latest Developments For Eurosash

TRIMS

White foiled and Cream foiled trims are now available to order 45 mm and 95 mm flat “Single D” architraves.

BALANCES

Cream balances now being used in all cream grain windows.

DRIP RAIL

Since our newsletter in April regarding our new drip rail we have been inundated with orders. Let us know if you require this with every order.

HIGH SECURITY

New high security windows are now available to order. Currently being tested to BS7950 standards. Contact Gary for further information.

WOOLPILE INFILL STRIP

Now available in all colours, this strip really enhances the windows appearance and is now being fitted in all windows at no extra cost!

WHITE GRAIN EXTRAS

Matching white grained casements, doors and door panels have now been sourced and can be purchased with our white grain sliding sash window.

FIRE ESCAPE—Bottom Sashes Only Hinged

A regulation fire escape opening can be achieved (depending on window size) by fitting our hinge hardware to the bottom sash only. The top sash will then operate as normal (but without the tilt facility). Contact Gary for further information.
