

News item November 2009

Show time again, we return to RDS Hall, Simmonscourt, Dublin for the Plan Expo show which runs for 3 days – Tuesday 3rd, Wednesday 4th & Thursday 5th November 2009.

Then it is straight to the Self Build Extend & Renovate show, Mill Street Co Cork for the 3rd successive year. The exhibition runs this year again for 3 days – Friday 6th, Saturday 7th & Sunday 8th November 2009.

We will again be displaying our new integrated fly screen; it was very well received at Self Build show & at the Build Exhibition. Anyone who seen the fly screen was very impressed and all said they would use it in at least one room in their house, kitchen & bathroom especially.

INTEGRATED FLY SCREEN

We have developed a way to include an integrated fly screen which is concealed within the outer frame and works along with the top sash.

This is another first for **eurosash**, insect protection that does not spoil the appearance of the sash window. Ideal locations are kitchen windows, bathroom windows, farm houses, homes near lakes / ponds or wooded areas, hospitals basically anywhere there are insects.
