

## *Eurosash* SPECIFICATION

*Eurosash*, this authentic sash window retains the charm of a past era, the design of the window is truly amazing in its appearance and performance. *Eurosash* windows use advanced technology which works in harmony with traditional design to provide an authentic looking window with all the benefits from high performance modern materials.

Thermal properties are enhanced through the use of 24mm 'Low-E' argon gas filled double glazed units, coupled with thermally efficient warm edge spacer bars. Weathering performance is increased by the use of double pile seals and our unique *eurosash* sealing system.

### *Don't just think sash, think eurosash*
